

Screening Process

Primary Sedimentation Process

5 x 650,000-gallon Tanks

Aeration Process

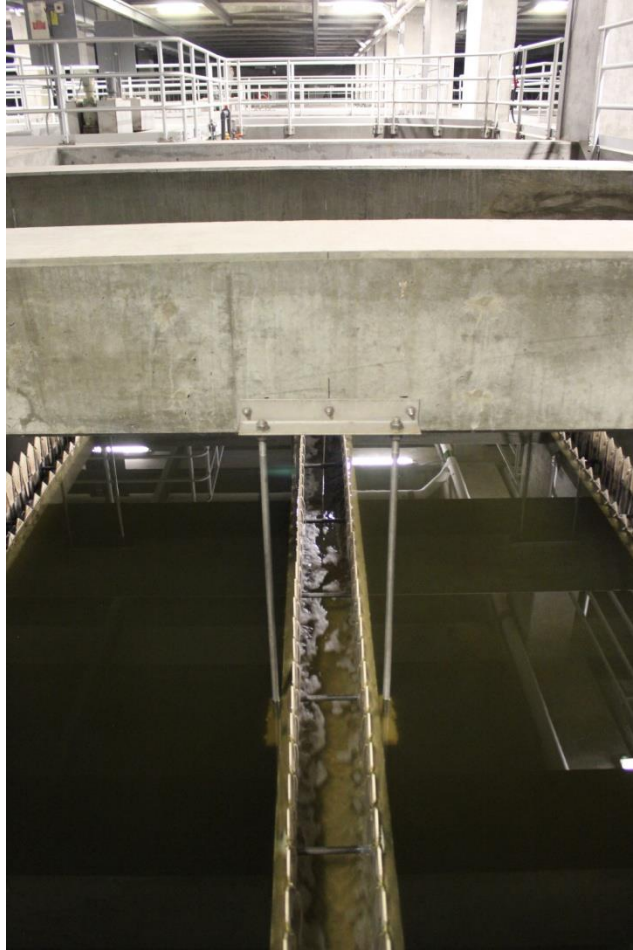

3 x 750,000-gallon Tanks

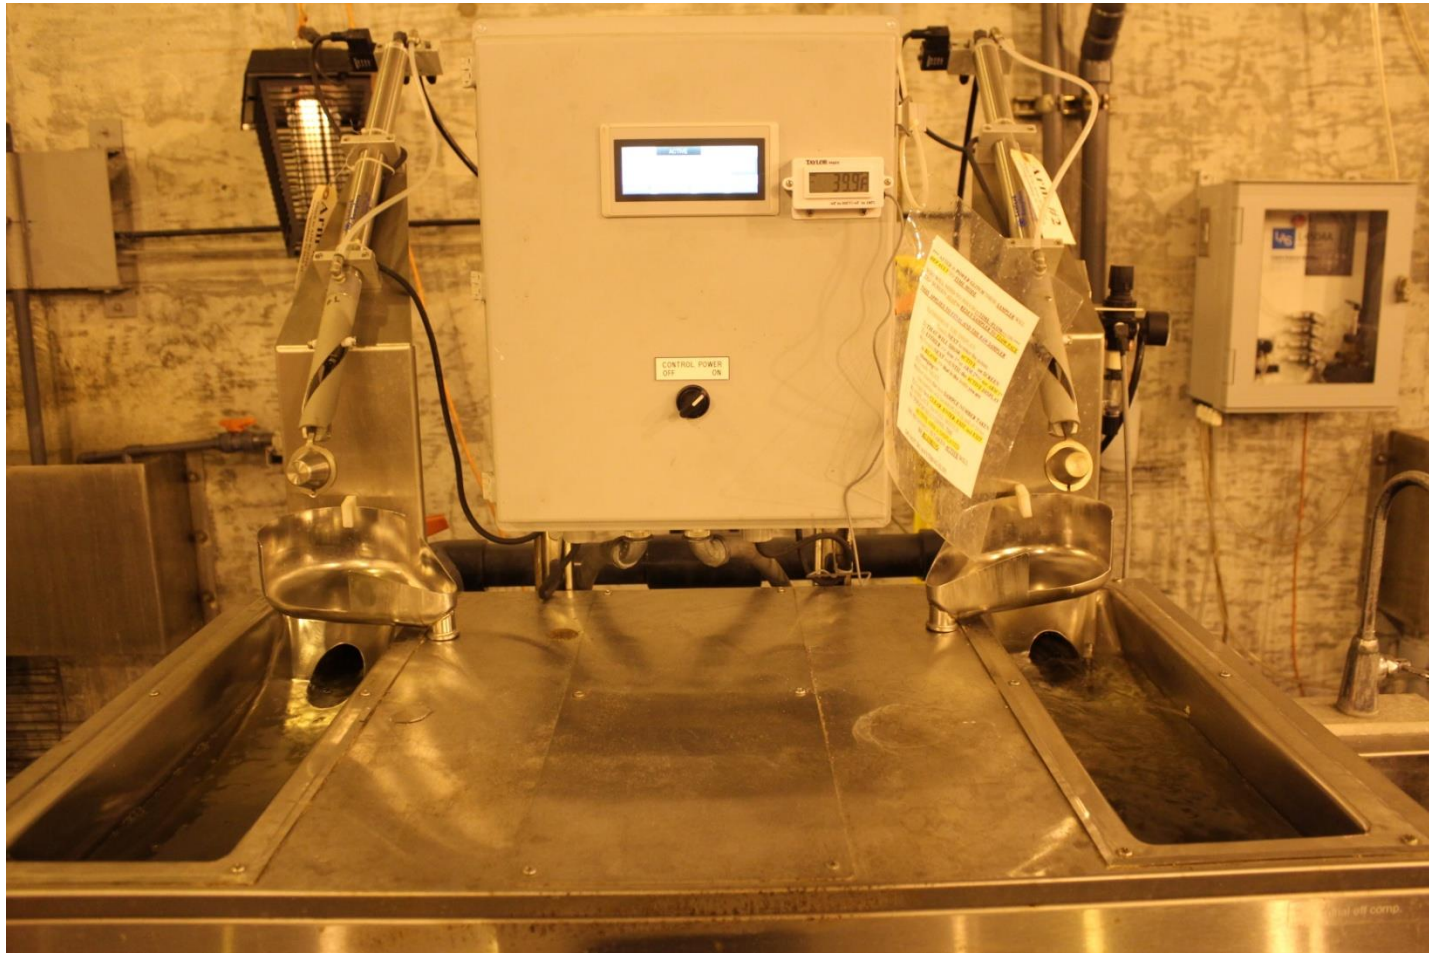

Secondary Sedimentation Process

7 x 900,000-gallon Tanks

Continuous Water Quality Monitoring

Odor Control Units

Anaerobic Digestion Process

4 x 750,000-gallon Tanks

Anaerobic Digestion Process

4 x 750,000-gallon Tanks

Co-generation Process

2 x 550 kW Internal Combustion Engines

Boilers

Sludge Thickening Process From 2% to 7% Total Solids

Sludge Thickening Process From 2% to 7% Total Solids

Digested Sludge Dewatering Process

From 2.5% to 16% Total Solids
